### **Ohio Man Charged With Providing Material Support to Terrorists**

(ABC) An Ohio man who allegedly sympathized with ISIS and trained with another terrorist group in Syria has been arrested by federal authorities after returning and looking to launch attacks in the U.S. homeland, the Justice Department announced today. Abdirahman Sheik Mohamud, 23, of Columbus, left the United States in April 2014 for the purpose of training and fighting with terrorists in Syria, according to the Justice Department. He had become a naturalized citizen only two months earlier. Mohamed wanted to join ISIS and he previously posted ISIS propaganda online, but he has been charged with providing material support to al Nusrah, an Al Qaeda affiliate operating in Syria, according to the Justice Department. A radical cleric then instructed him to return to the United States and commit an act of terrorism, the documents say. Mohamud returned to the United States in June 2014 with a plan to attack a military facility or a U.S. prison, according to the charging documents. “Mohamud talked about doing something big in the United States,” the documents say. “He wanted to go to a military base in Texas and kill three or four American soldiers execution style.”

### **Al-Qaeda seizes Yemen airport**

(BBC) Militants from al-Qaeda in the Arabian Peninsula (AQAP) have seized an airport in southern Yemen, officials say. Troops guarding the site in the major port city of Mukalla, Hadramawt province, have fled, they said. AQAP has exploited the chaos gripping the country, overrunning Mukalla earlier this month and freeing inmates from a prison. A Saudi-led coalition has been bombing Shia Houthi rebels, who have been advancing across the country. The Houthis swept into the capital Sanaa last September, eventually forcing President Abdrabbuh Mansour Hadi to flee abroad. AQAP fighters have also reportedly took control of a sea port and an oil terminal in southern Yemen.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

High pressure over the west coast will maintain warm weather in the interior through the weekend. Coastal areas will see low clouds mainly during the night and morning hours through the weekend.

#### **Medford Weather:**

Highs in the lower 70s to lower 80s can be expected with east winds approximately 5 mph shifting to the north late this afternoon. Tonight will be mostly clear with lows around 40 in the valleys and in the mid-40s to lower 50s. In the higher elevations northeast winds 5 to 10 mph.

#### **Reno Weather:**

Well above normal high temperatures are on tap through early next week. There will be a slight chance of showers and thunderstorms in the Sierra over the weekend which will spread into northeast California and western Nevada by Tuesday. Cooler temperatures with increasing chances for precipitation are expected for the second half of next week.

#### **San Francisco Weather:**

High pressure over the California coast will maintain dry weather conditions along with temperatures above seasonal averages through the weekend. Temperatures cool slightly for the first half of next week with a slight chance of showers across the region.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

#### **Sacramento Weather:**

Very warm temperatures should be expected through the weekend. A weak weather system will bring a slight chance of mountain showers or an isolated thunderstorm this weekend. Temperatures then start cooling Monday through Wednesday with a chance of rain most areas.

#### **Hanford Weather:**

High pressure continues to build over the area with mainly dry conditions and temperatures going above average into the weekend for the valley and foothills. A threat of showers and thunderstorms does exist over the crest of the Sierra Nevada during the weekend and into Monday. A change in the weather pattern may be possible next week as a low pressure area moves in from the pacific. This may bring a threat of showers and thunderstorms to central California beginning Tuesday.

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

Pleasant weather expected today with continued clear and warm conditions. An approaching trough will settle in over the region early next week and bring much cooler conditions and the possibility of a few showers by mid-week with snow showers possible in the mountains.

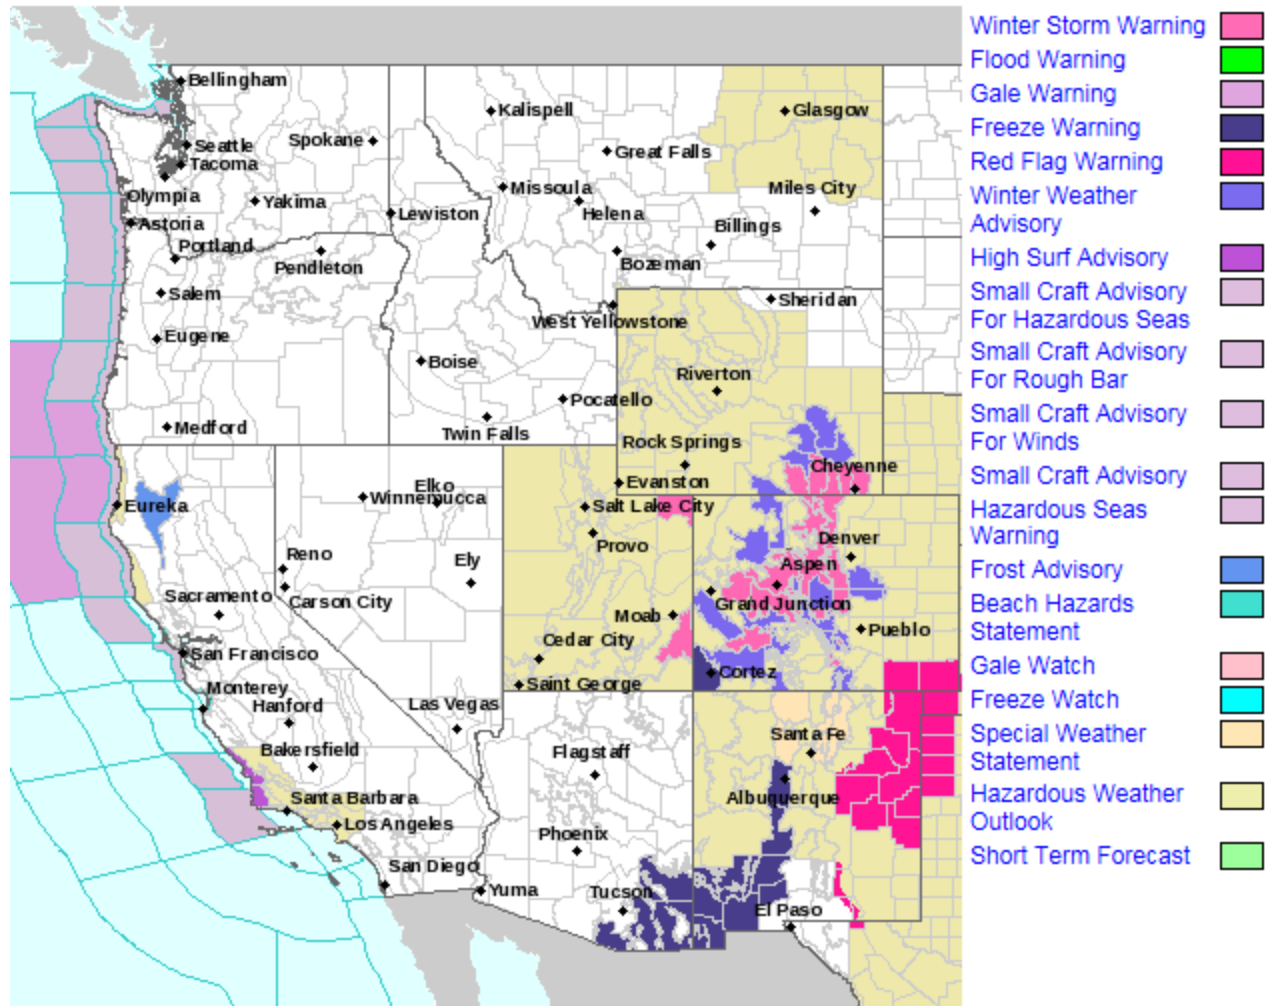

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

Fair weather will continue through early next week but with a gradual cooling trend. Coastal low clouds will begin to appear this weekend during the nights and mornings extending farther inland each night next week. A low pressure trough developing along the west coast will bring cooler weather more clouds and a chance of showers Wednesday and Thursday.

#### **Southeast California Weather:**

Mostly clear skies and warming temperatures are expected Friday into the weekend. Look for high temperatures in the lower deserts to be a few degrees below normal on Friday but climb back into the 90s by Saturday. Dry and warm weather will persist into the middle of next week...but an approaching storm system will bring cooler temperatures and a slight chance of showers to the region Wednesday into Friday.
